Professional Preparation

The Australian National University. B.A. (Hons) with First Class Honors and University Medal in Linguistics. Additional majors in Mathematics and Computer Science. 1989.

Stanford University. Ph.D. in Linguistics. Dissertation title: *Ergativity: Argument Structure and Grammatical Relations.* 1994.

Appointments

2012–present	Professor of Computer Science and Linguistics, Stanford University.
2006–2012	Associate Professor of Computer Science and Linguistics, Stanford University.
1999–2006	Assistant Professor of Computer Science and Linguistics, Stanford University.
1996–1999	Lecturer B [≈ Asst Prof.], Department of Linguistics, University of Sydney.
1994–1996	Assistant Professor, Computational Linguistics Program, Department of Philosophy, Carnegie Mellon University.

Dan Klein and Christopher D. Manning. 2003. Accurate Unlexicalized Parsing. *ACL 2003*, pp. 423–430. **Best paper award.** http://nlp.stanford.edu/~manning/papers/unlexicalized-parsing.pdf

Christopher D. Manning and Hinrich Schütze. 1999. *Foundations of Statistical Natural Language Processing*. Cambridge, MA: MIT Press. https://nlp.stanford.edu/fsnlp/

Synergistic Activities

Cowrote leading textbooks in Natural Language Processing and Information Retrieval.

Tutorials: Taught Deep Learning tutorial at Joint Statistical Meetings 2018 (with Ruslan Salakhutdinov). Taught Neural Machine Translation tutorial at ACL 2016. Taught Deep Learning for NLP tutorials at ACL 2012 and NAACL 2013 (with Yoshua Bengio and Richard Socher). Taught earlier NLP tutorials at AAAI 2000, NIPS 2001, NAACL 2003, ACL 2003, and Digital Humanities 2011.

Developed and taught one of the first massively open online courses (MOOCs): Dan Jurafsky and Christopher D. Manning. Natural Language Processing. 70,000 students, Winter 2012.

Distribute Stanford CoreNLP, a widely used set of open source NLP tools for statistical parsing, POS tagging, named entity recognition, Chinese word segmentation.

Give a class on NLP at Stanford ai4all/SAILORS, a summer programmer for rising 10th grade girls to get them interested and involved in AI research.
